

Nordic Lyte

Nordic Lyte

"Empowering the battery industry to achieve greater sustainability"

Li-Ion electrolyte

Na-Ion electrolyte

"Driving sustainability in the battery industry with innovative processes and solutions"

Nordic Lyte services

**Stable and resilient
supply chain**

**Customizability
and flexibility**

**Co-location and
logistic facility
management**

**High quality and
partnering in R&D**

What's the next step

Pilot and scale-up

- Pilot line development and location
- Logistic and storage solutions
- Cooperation with stakeholders
- Current capacity planned ca 500 t/a
- Planned full-scale 5-20 GWh equivalents
Modularized and adjusted to partner

Synergies with Nordic Lyte near-by or co-location

- Storage and logistics solutions
- Reduced return container handling
- Possible with direct pipe-feed
- Greatly improved shelf-life and improved quality
- Rapid supply changes, allowing instant adaptability of production
- Decreased transportation and production footprint
- Enables easier multi-point sourcing
- Cooperative development of technology
- And much more ...

Thank you!
